

NetworkKit::Graph::hasEdge

```
graph LR; A[NetworkKit::Graph::hasEdge] --> B[NetworkKit::Graph::find]
```

A diagram showing a relationship between two identifiers. On the left, a gray rectangular box contains the text 'NetworkKit::Graph::hasEdge'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. This white box contains the text 'NetworkKit::Graph::find'. Both boxes have a thin black border.

NetworkKit::Graph::find
